T-Force XP is a tactical flashlight designed for mounting on long guns. It emits a 2030 lm light output, illuminating up to 330 m. It has impact resistance of 2 m and is waterproof (IPX8). It has a main tactical switch at the rear and a mode switch near the head for easy and flexible operation. It is powered by a magnetically rechargeable 18650 Li-Ion 3200 mAh battery or two CR123A batteries. The flashlight is mounted on the weapon using M-Lok or Picatinny systems, which are available as an option. Optional accessories include a remote pressure switch for instant response and precise control, RGB filters, and a signal cone. The flashlight is designed for law enforcement, rescue teams, and sports shooters.
